The handy 8 cm format DVD drops straight into today's digital video cameras, so you no longer have to back-up or copy tapes onto DVD. The smaller DVDs can be played and edited using standard DVD writers. They're easier to carry around too.

Scratch resistant layer

Thanks to the special protective coating on the sensitive side of your DVD-R, DVD+RW or DVD-RW, you can be sure your irreplaceable memories will be safeguarded against scratches, fingerprints and dust from everyday handling.
